

CALL FOR VOLUNTEERS

In recognition of National Engineers Week 2008, SWE San Diego is sponsoring an outreach event at an elementary school in City Heights. Volunteers will lead 5th graders through hands-on life and physical science experiments. These experiments have already been designed; volunteers only need to learn and teach them! The event will require 1 1/2 hours of your time during business hours on Friday, February 22, 2008. Volunteer for one session or all morning: sessions are 8-9:30, 9:30-11, or 11-12:30.

Rosa Parks Elementary School
4510 Landis St
San Diego, CA 92105

**Please contact Andrina or Jodi by Friday, February 15,
if you are interested in volunteering!**
